REGINA JALANDONI

Batangas City, Batangas │ 0998-427-1960 │ reginajalandoni@gmail.com

PROFESSIONAL SUMMARY

Cum Laude Computer Engineering graduate and Full Stack Developer with hands-on experience in the full software development lifecycle. Skilled in building responsive, user-focused web applications using Laravel, Vue.js, and React.js. Proven ability to manage projects end-to-end, work in Agile teams, and deliver scalable, maintainable solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, Python (Basic)

Frontend Frameworks: React JS, Vue JS

UI & Styling: Tailwind CSS, Bootstrap, Shadcn UI, PrimeVue

Backend & Database: Laravel, MySQL, MongoDB

DevOps & Tools: Git/GitHub, Docker, Linux, Postman, Jira, Figma

CMS: WordPress

PROFESSIONAL EXPERIENCE

Junior Web Developer │ BPO GNA Philippines
September 2024- Present

- Managed full project lifecycle by translating client requirements into Jira user stories, coordinating releases, and implementing post-launch feature updates.
- Led a small development team by assigning tasks, conducting code reviews, and tracking progress to ensure timely delivery.
- Developed and maintained full-stack web applications using Vue.js, Inertia.js, Laravel, PHP, and REST APIs.
- Participated in application architecture planning and designed optimized MySQL database structures for complex data workflows.
- Implemented DevOps workflows including Docker containerization, Linux environment debugging, and deployment optimization.

Front End Developer (Intern) │ 8box Solutions Inc.
February 2024- April 2024

- Contributed to frontend development of the "Laro App" using React.js, Tailwind CSS, and reusable UI components.
- Improved website performance by implementing advanced React optimization techniques (memoization, lazy loading, efficient state handling).
- Customized WordPress themes using Vanilla CSS and JavaScript, and built sections using Elementor.
- Delivered fully responsive designs ensuring compatibility across all device sizes.

Front End Developer (Part-Time) │ Yaramay Computer Maintenance Service
October 2023

- Spearheaded the development of the OFW Serbisyo Kooperatiba landing page using a comprehensive skill set encompassing HTML,CSS, Javascript, and Bootstrap.
- Orchestrated the layout design for the Mapiya Landing page, employing Figma to ensure a seamless and visually appealing user interface.

EDUCATION

Web Development Bootcamp (Full Stack Development)
Zuitt Coding Bootcamp │ August 2024

Bachelor of Science in Computer Engineering
*Batan*gas State University │ 2020 - 2024
Distinction: Cum Laude
